TITLE : TRANSMITTER FOR REMOTE CONTROL

ABSTRACT : PURPOSE: To confirm easily the state of the main body of a TV picture receiver even at the side of a transmitter for remote control, by transmitting the display, setting state, etc. of the TV picture receiver to said transmitter.

CONSTITUTION: A TV picture receiver 1 incorporates a transmitting function 5 to transmit the information to a transmitter for remote control 2. The signal is transmitted to the transmitter 2 from the transmitter 5, and the channel that is presently received can be confirmed at the side of the transmitter 2. In the same way, the signal is transmitted to the transmitter 2 from the transmitter 5 even when a control key 3 is operated to change the receiving channel. Then a new receiving channel is displayed to a display 4.
